

PL-900T00: Introduction to Microsoft Power Platform

Course Code: PL-900T00

Duration: 2 days

Instructor-led Training (ILT) | Virtual Instructor-led Training (VILT)

OVERVIEW

Learn the business value and product capabilities of Microsoft Power Platform. Connect data with Dataverse, build simple canvas and model-driven apps, automate a process with Power Automate, and build a Power Pages site.

PRO Tip: What makes Power Apps different from other tools such as SkyBow, Stratus Forms, FlowForma and more? Do check out our latest [Design Customized Apps with Microsoft Power Apps](#) blog post to know more

SKILLS COVERED

- Describe the business value of Microsoft Power Platform
- Manage the Microsoft Power Platform environment
- Demonstrate the capabilities of Microsoft Power Pages
- Demonstrate the capabilities of Microsoft Power Apps
- Demonstrate the capabilities of Microsoft Power Automate

WHO SHOULD ATTEND?

This course helps learners understand how Microsoft Power Platform technologies can be used to develop tailored business solutions. It covers how to optimize the use of data by using Microsoft Dataverse and connectors and accelerate business outcomes by using Microsoft Power Apps for low code/no code solutions.

Additionally, it covers how to improve processes by using Microsoft Power Automate, enable customer self-service by using Microsoft Power Pages, and boost productivity by using copilots. This course is intended for those seeking to start their journey building solutions with Microsoft Power Platform.
